Getting Ready for the Changes in E&M Documentation & Coding 2021 Psychiatry and Substance Use Disorders

A 5-part on-demand webinar series
with a 1.5 hour live Q&A session

The Evaluation and Management (E/M) documentation guidelines for new and established patient visits are changing effective January 1, 2021

That means big changes are ahead in the coding, documentation and payment of these evaluation-and-management services. There is a lot for physician practices (clinicians and billing personnel) to understand before the new E/M office visit guidelines take effect Jan. 1, 2021. Among the 2021 changes for E/M office visits are: Eliminating history and physical exam as elements for code selection. This will allow physicians to choose the best patient care by permitting code level selection based on medical decision-making (MDM) or total time. In addition, learn about coding for therapy, substance use disorders, telehealth/telepsychiatry and more. The recorded trainings will be available on-demand, so that participants may view at their own pace, at a time that is convenient to them.

Webinar 1:	E&M for the office/outpatient 2021 for psychiatry (90 min.)
Webinar 2:	E&M for the office/outpatient 2021 for substance use disorders, which will include the Medicare OPT program as well (90 min.)
Webinar 3:	Review of therapy coding for the therapist, including the diagnostic assessment, individual therapy, family therapy and group therapy (60 min.)
Webinar 4:	E&M and therapy in the facility based setting, including inpatient and nursing homes (60 min.)
Webinar 5:	Telehealth/telemedicine for psychiatry (60 min.)
Live Q&A	December 17, 3:30 - 5 p.m. (Eastern) available to everyone registering for the full series (5 on-demand webinars)

Please note: In order to keep registration fees low and to expedite the availability of the on-demand webinars, continuing education will not be available for these courses. We hope you understand and apologize for any inconvenience this may create.

About our Speaker

Diane Zucker, M.Ed., CCS-P, is a health care management and reimbursement consultant who has spent nearly three decades as a consultant providing physicians and practices with educational programs, support and ongoing information on the complex maze of documentation, coding and compliance. Diane has a Master's degree in Education and a Bachelor's degree in social work from Kent State University with additional coursework in health care management and reimbursement. Prior to consulting, Diane worked in health care as a social worker and for a major health insurance company. Diane is also a certified CPT coder and ICD-10-CM trainer.
